Household Survey Analysis

HOUSEHOLD SURVEY ANALYSIS

Food and Grocery Shopping

Main Food Shopping

- A.1 The larger food stores in the study area are the main destination for respondents' last main food shopping trip across the study area. Overall, the Sainsbury's at Winchmore Hill was the most popular shopping destination for the study area as a whole, although different zones recorded different responses as the most popular destination for their main food shopping trip. In Wood Green (Zone 1) Morrison's and Sainsbury's on the High Road in Wood Green were the most popular location for respondents (24% and 17.6% respectively). The Tesco at Coppetts Centre on the North Circular Road followed by the Sainsbury's on Fortis Green Road in Muswell Hill were the main last food shopping destinations in the Muswell Hill zone (Zone 2) with 30.8% and 18.7% respectively. In the Crouch End zone (Zone 3), Budgens on the Broadway in Crouch End was the most popular last main shopping destination (14%) followed by the Waitrose on Holloway Road (13.2%).
- A.2 In Zone 4 (Fortis Green/Highgate) the most popular last main shopping destination was Sainsbury's on Camden Road in Camden (10.8%) and in Zone 5 (Arnos Grove/Palmers Green) the Tesco at Coppetts Centre on North Circular Road was the most popular last main shopping destination (26.3%).
- A.3 In the Green Lanes/Stamford Hill zone (Zone 6) the most popular last main food shopping destination was Morrison's on Stamford Hill (19.5%) followed by Sainsbury's on Williamson Road (18.3%). In Zone 7 (Bruce Grove/Tottenham High Road) the most popular last main food shopping destination was the Tesco at 230 High Road, Tottenham (26%).
- A.4 In the Tottenham/White Hart Lane zone (Zone 8) the most popular main food shopping destination was the Sainsbury's at 867-869 High Road, Tottenham (15.8%) and in Zone 9 (Walthamstow) the Sainsbury's on Walthamstow Ave in Chingford was the most popular last main food shopping destination (26.3%). The most popular last main food shopping destination in Edmonton/Winchmore Hill Zone (Zone 10) was the Sainsbury's at Winchmore Hill (31.1%).

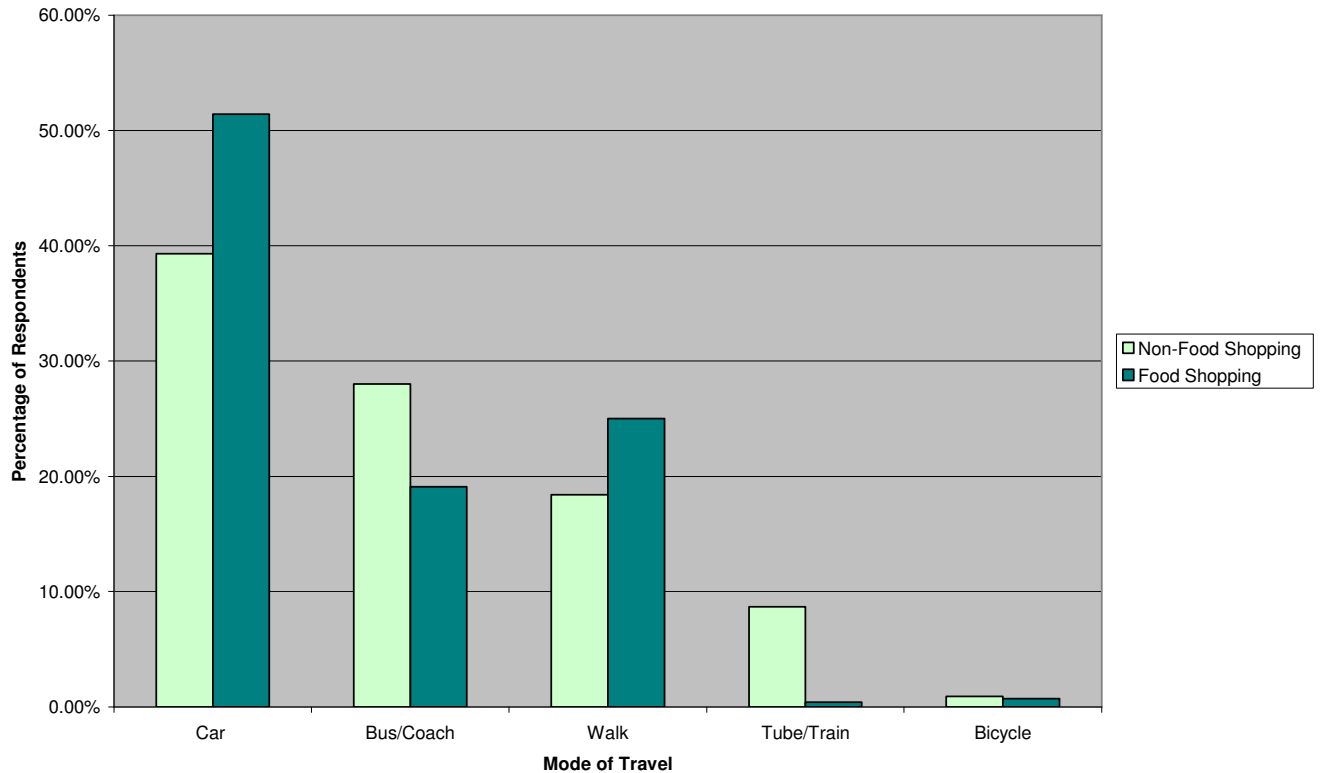

Mode of Travel for Main Food Shopping

- A.5 In the whole study area 51.4% of respondents indicated that they travel to do their main food shopping by car (both as driver and passenger), which is significantly lower than NLP's average derived from similar surveys across the Country (about 75%). A higher proportion of households travel by bus (19.1%) compared with the NLP average (8%), and also a higher proportion walk, 25% compared with the NLP average of 11.5%. A number of respondents (0.7%) used a bicycle to travel to their last main food shopping location which is also higher than NLP's average of 0.5%. A small proportion of respondents (0.4%) stated that they used the train/tube to travel to their last main food shopping destination. These results reflect the high levels of accessibility to food stores and convenience shops within and around the Borough by bus and on foot.

Mode of Travel for Non-Food Shopping

- A.6 The predominant modes of travel for non-food shopping were car and bus with 39.3% of respondents indicating they use the car and 28% indicating that they use buses to travel to their non-food shopping destination. The third most popular mode of travel for non-food shopping was walking (18.4%), followed by train/tube (8.7%). Generally less customers will drive for non-food shopping than food shopping, and are more prepared to use public transport (bus or train/underground).
- A.7 Figure A.1 compares the mode of travel for both food and non-food shopping trips within the Study Area.

Figure A.1: Mode of Travel to Shopping Destination

Top-Up Food Shopping

A.8 Top-up food shopping trips are usually made in addition to main weekly (or less frequent) shopping trips. Over 80% of households across the study area indicated that they undertake small-scale or top-up shopping trips in addition to their main food shopping trips. The results show that households primarily use local shops for top-up shopping.

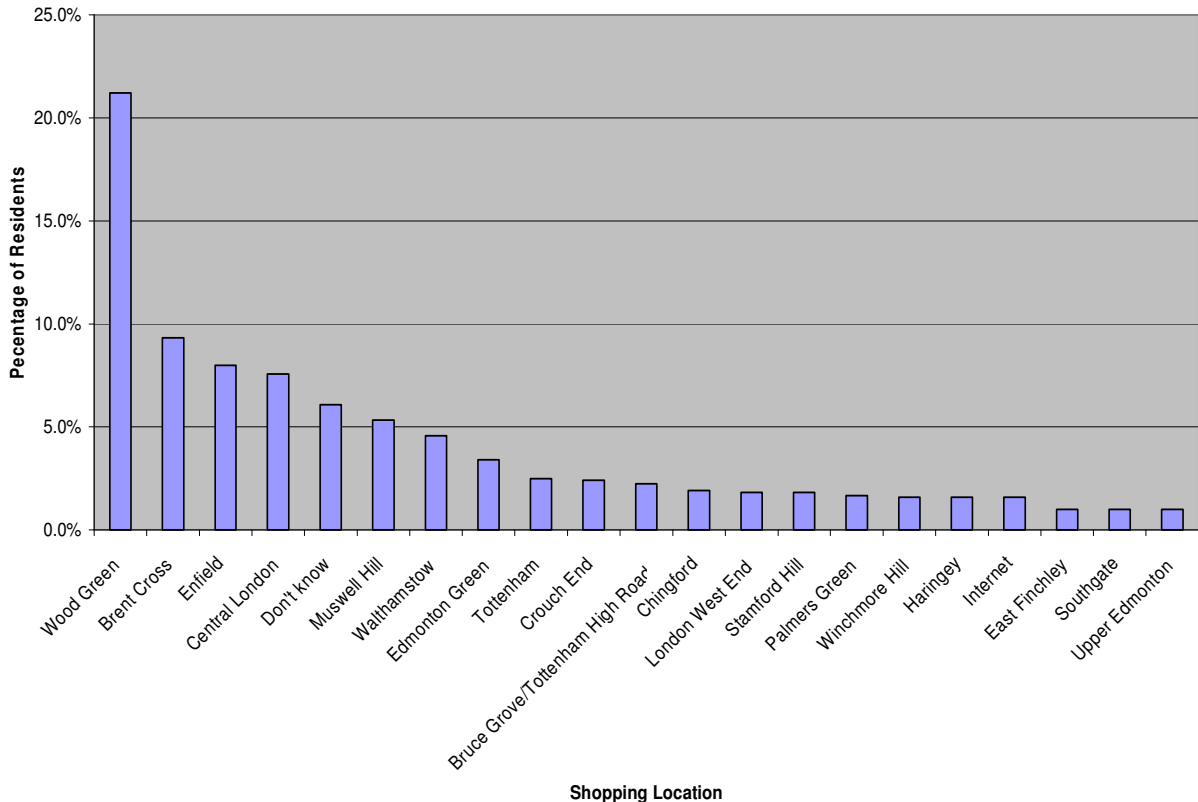

Non-Food Shopping

A.9 Households were asked in which location they buy most of their household's non-food shopping. For the study area as a whole, Wood Green is the most popular destination, with 21.2% of all respondents shopping there, followed by Brent Cross (9.3%), Enfield (8.0%) and Central London (7.6%). Despite the preference of Wood Green overall, it is only the most popular destination for non-food shopping in five zones (Zones 1, 5, 6, 7 and 8). Many respondents in Zone 2 stated their main non-food shopping destinations were Muswell Hill (36.3%) and Brent Cross (23.1%). In Zone 3, 16.7% of respondents' main non-food shopping was Brent Cross followed by Crouch End (15.8%). In Zone 4, the main non-food shopping destination was Brent

Cross (38.5%). In Zone 9 the main non-food shopping destination was Walthamstow and in Zone 10 the main destination was Enfield.

A.10 Figure A.2 shows the main non-food shopping destinations for residents in the Study Area.

Figure A.2: Main Non-Food Shopping Destinations

Non Food Shopping Destinations

A.11 Households were also asked where they last shopped for different types of non-food goods.

A.12 Overall the most popular destination for buying clothing and footwear was Wood Green, which is the most popular destination in Zone 1 (40%), 6 (25.4%), 7 (39.6%) and 8 (36.7%). In Zones 2, 4 and 5, Brent Cross was the most popular destination for clothing and footwear with 25.3%, 29.2% and 20.0% respectively. Internet Shopping

A.21 In addition to those respondents who stated they last bought their main shopping or a specific comparison good on the internet, all respondents were asked what items, if any, they regularly bought on the internet. Overall 57.8% of the respondents stated they did not regularly buy goods on the internet.

A.22 Of all the respondents, the most popular category of goods people regularly bought on the internet were books, CDs and toys with 27.9% of all respondents. This was followed in popularity by electrical, TV, hi-fi and computer items (11.7%) and clothes

and footwear (11.0%). Overall 5.1% of respondents regularly did their grocery shopping online and 4.5% of respondents bought their domestic electrical appliances on the internet. Other items that respondents regularly shopped for online include holidays (3.2%), furniture, soft furnishings and floor coverings (2.7%) and DIY, hardware and homeware (2.1%).

Leisure Activities

Cinemas

A.23 Respondents were asked if they went to the cinema and if so which cinema they last visited. About 51% of respondents indicated they visit the cinema, which was the second most popular leisure activity after visiting restaurants. This is comparable with the NLP's average derived from similar surveys across the Country (about 50%). The respondents visit a variety of cinemas, with the popular cinema destination (22.1% of respondents) being the Cineworld at Shopping City in Wood Green. A notable proportion of respondents also visit the cinema in Enfield (13.1%) and the Odeon on Fortis Green Road in Muswell Hill (12.3%) whilst 9.8% of respondents last visited a Central London cinema.

Theatre

A.24 In the study area, 45% of respondents indicated they visit theatres, compared with NLP's average for other surveys of only 42%. When asked where they visit the Theatre, Central London and the West End were the most popular locations, accounting for over 70% of the respondents in the catchment area. Other locations where respondents visited the theatre include Islington (3.1%), Edmonton (2%), and Hackney (2%).

Pubs/Bars

A.25 The household survey asked respondents if and where they or their family last visited a pub/bar. 35.7% of respondents indicated that they visit pubs/bars, which is slightly lower than the NLP's average from other surveys (48.1%). The main destinations for respondents who visit pubs and bars varies across the zones:

- Zone 1- Wood Green (28%)
- Zone 2- Muswell Hill (33%)
- Zone 3- Crouch End (40%)
- Zone 4- Highgate (30.8%)

- Zone 5 - Muswell Hill (11.4%), Southgate (11.4%)
- Zone 6 - Crouch End (10.5%), Green Lanes (10.5%)
- Zone 7 - Tottenham (12.2%)
- Zone 8 - Edmonton Green (15.4%)
- Zone 9 - Walthamstow (33.3%)
- Zone 10 - Enfield (18.6%)

A.26 Of all the respondents who visit pubs/bars as a whole London's West End attracted 12.4% of respondents. Within the Borough, Crouch End and Muswell Hill were the most popular bar/pub venues with 7.9% and 6.8% of respondents respectively.

Restaurants

A.27 Almost 68% of respondents indicated they visit restaurants, which was the most popular leisure activity, and is slightly higher than NLP's average for other surveys (67.5%). Again there was significant variation in where respondents visited restaurants:

- Zone 1 - Crouch End (19.3%)
- Zone 2 - Muswell Hill (31.4%)
- Zone 3 - Crouch End (40.7%)
- Zone 4 - Central London (29.4%)
- Zone 5 - Central London (12.1%)
- Zone 6 - Crouch End (13.5%), Central London (12.5%)
- Zone 7 - Wood Green (13.6%)
- Zone 8 - Wood Green (12.2%), Enfield (11.1%)
- Zone 9 - Chingford (35.6%)
- Zone 10 - Enfield (23.1%)

A.28 Of all the respondents who visit pubs/bars, Central London attracted 12.6% of respondents. Within the Borough Crouch End and Muswell Hill were the most popular restaurant venues with 10.1% and 6.6% of respondents respectively.

Nightclubs / Live Music

A.29 Only 7.2% of respondents indicated that they had visited nightclub/live music venues, however, this is lower than NLP's average derived from other similar surveys suggests a similar participation rate of 10.1%. The main nightclub destination for respondents in the study area as a whole was Central London (52.9%). Within the Borough the main destination was Wood Green (5.7%) followed by Muswell Hill (4.6%).

Bingo

- A.30 Bingo proved the least popular leisure activity with only 4.7% of respondents indicating that they undertake this activity, and this is marginally lower than NLP's average participation rate of 5.0% as derived from other similar surveys. The sample for bingo visitors within each zone is very small. Wood Green was the most popular place to play bingo (39.3%), followed by Enfield (26.8%).

Health and Fitness Clubs

- A.31 Over 24% of respondents indicated their household visit health clubs/gyms, which is slightly lower than the NLP average participation rate from other surveys (25.5%). Respondents used a wide range of gyms across the study area with some using gyms in the adjoining areas. The main gym/health club destinations for respondents in the study area as a whole are Crouch End (13.3%), Muswell Hill (9.5%), Edmonton Green (5.8%) and East Finchley (5.5%). Crouch End includes a Virgin Active health club and a Fitness First for Women and Muswell Hill includes an LA Fitness centre.

Tenpin Bowling

- A.32 Nearly 13% of respondents indicated their household visit tenpin bowling facilities, which is significantly lower than the NLP average for other surveys (17.8%). The main tenpin bowling destinations are East Finchley (27.6%) and Finsbury Park (22.4%) both of which are outside the Borough.

In-Street Survey Analysis

IN-STREET SURVEY ANALYSIS

Main Purpose for Visit to Each Centre

- B.1 Respondents were asked about their main reason for visiting the centre. Overall 49% of respondents mentioned some form of shopping as the main reason for their visit. All centres attracted visitors for a wide range of different activities.
- B.2 Overall shopping for food only was the main activity (18% of all respondents), followed by work/business purposes (15%) and social/leisure reasons (13%). Shopping for food was the main activity in Green Lanes (25%), Bruce Grove/Tottenham High Road (22%), Muswell Hill (21%) and Crouch End (15%). The proportion of respondents undertaking non-food shopping (non-food goods only or mixed non-food and food shopping) ranged from 25% in Wood Green to 10% in Bruce Grove/Tottenham High Road. Of the respondents who did not mention shopping as the main reason for their visit to the centre, 42% suggested they would do some shopping, and therefore in total about 70% of all respondents intended to do some shopping during their visit.
- B.3 All respondents were asked if they intended to visit leisure/entertainment facilities or eat/drink. Only 31% of respondents intended to undertake these activities, with Crouch End achieving the highest proportion (39%). Of those who did intend to undertake these activities the most frequent destinations mentioned were; restaurants (45%), takeaways (22%), pubs/bars (17%) and sports facilities.
- B.4 Respondents were also asked if they ever visited community facilities. In total 47% of respondents visit these facilities, with Crouch End achieving the highest proportion (64%) followed by Muswell Hill (55%). Of those who visit these facilities the most frequent destinations mentioned were; libraries (41%), health centres (12%) and recreation centres/grounds (11%).

Intended Visitor Purchases

- B.5 All the respondents who intended to do some shopping were asked what they intended to buy during their visit, as shown in Table B.1.

Table B.1: Intended Purchases

Reason for Visit	Total for all Centres (%)	Centres with highest proportion purchasing these goods

Don't know	1%	n/a

N.B. The figures add up to more than 100% because some respondents gave more than one answer.

- B.6 Food and grocery items were the main items purchased in all centres, with between 55% (Wood Green) and 72% (Crouch End) of shoppers purchasing these goods. Wood Green had the highest proportion (28%) of customers buying clothing and footwear, and Crouch End was the next highest with only 9%. The proportions of customers purchasing other goods categories were relatively low in all centres (0% to 15%).
- B.7 Visitors who intended to undertake some shopping during their visit were asked to estimate how much they would spend on different items during their visit, as shown in Table B.2.
- B.8 The highest average spend per shopping visitor for food and groceries was achieved in Green Lanes (£14.22) with the lowest being in Bruce Grove/Tottenham High Road (£7.21), compared with the overall average of £10.60.

B.9 Non-food shopping accounted for the lower proportion of total expenditure in all centres except Wood Green. The average spend on non-food items was highest in Wood Green (£17.90) and lowest in West Green Road/Seven Sister (£2.72).

Table B.2: Average Spend in Centre

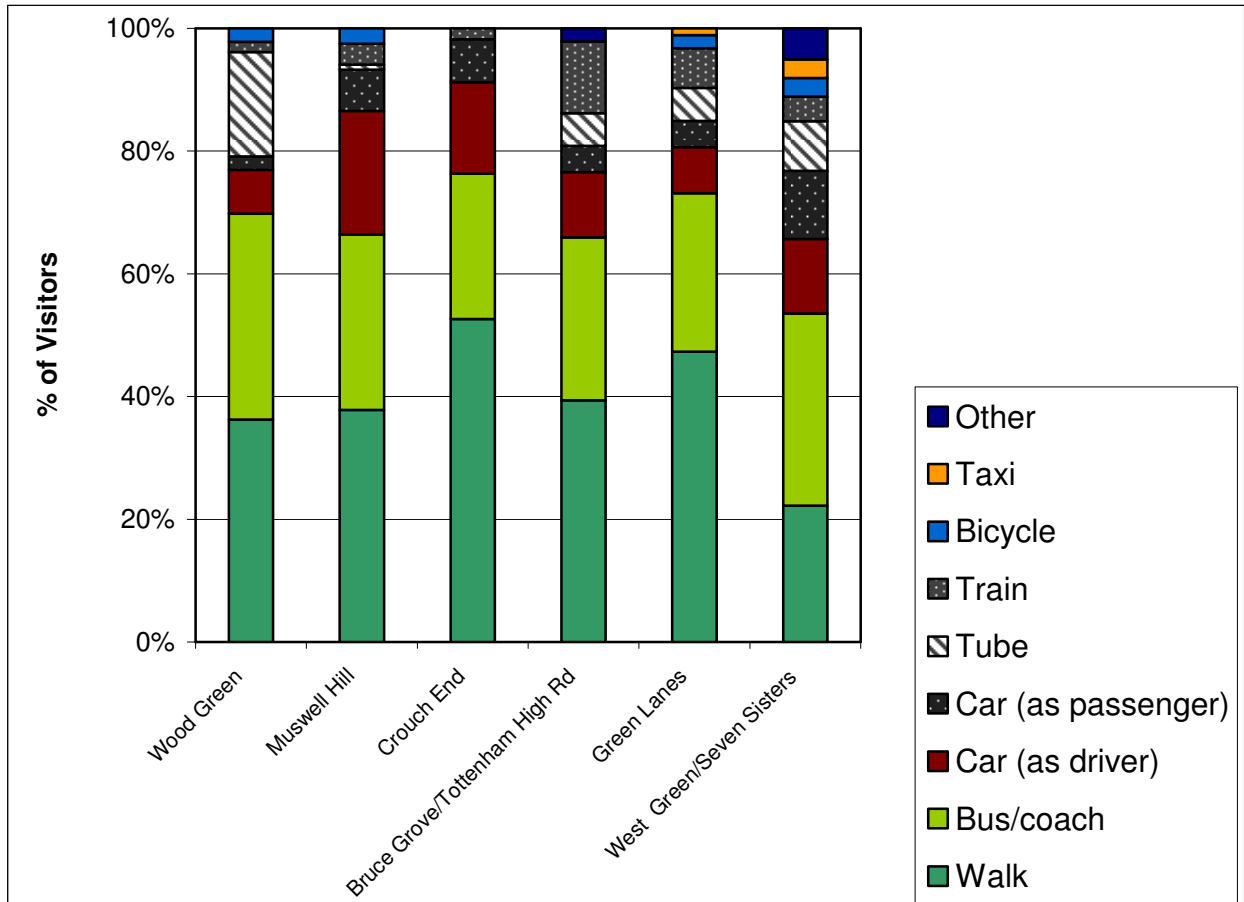

Centre	Average Spend on Food & Groceries	Average Spend on Non-Food Items	Average Spend on Eating/Drinking Out
Wood Green	£9.35	£17.90	£2.86
Muswell Hill	£9.78	£6.47	£0.47
Crouch End	£12.26	£10.21	£1.94
Bruce Grove/ Tottenham High Road	£7.21	£5.76	£0.74
Green Lanes	£14.22	£6.96	£0.79
West Green Rd/ Seven Sisters	£12.15	£2.72	£2.01
Average	£10.60	£9.50	£1.58

B.10 Spending on eating and drinking was relatively low in all centres. Wood Green had the highest average spend on eating and drinking out (£2.58). A high proportion of customers in all centres did not intend to eat or drink in the centre, which explains the low averages. The overall average spend in six centres as a whole (£1.58) is lower than the NLP average (£2.30) derived from similar surveys across the country. This is a daytime figure and tends to underestimate the average spend in these centres for eating and drinking out in the evening.

Mode of Travel and Car Parking

B.11 Mode of travel varied between each centre. A relatively high proportion of visitors travelled by tube or train, except in Muswell Hill and Crouch End. Conversely, car travel was highest in Muswell Hill, Crouch End and West Green/Seven Sisters. Bus travel was relatively high across all centres. Overall walking, travelling by bus and car travel were the most popular modes of travel. The results reflect the centre's high level of accessibility by public transport (bus, train or tube). The relatively high proportions of visitors who walk to the centres suggest all centres have a role in serving the needs of local residents.

Figure B.1: Mode of Travel to the Centre

B.12 Respondents were asked to rate the availability and price of car parking in the centre, the overall results are shown in Tables B.3 and B.4.

Table B.3: Availability of Car Parking

Frequency of Visit Rating	(%)
Very Good	1
Good	18
Neither Good/Poor	19
Poor	13
Very Poor	23
Don't know	26

B.13 A higher proportion of visitors (36%) rated car parking as “poor/very poor” than those rating it as “good/very good” (19%), and this pattern was consistent across all centres. The centres with the highest levels of satisfaction (good or very good) in terms of car parking were Crouch End (25%), Green Lanes (24%) and West Green Road/Seven Sisters. The centres with the highest levels of dissatisfaction were Bruce Grove/Tottenham High Street (44%), Muswell Hill (38%) and Wood Green (34%).

- B.14 The results for car parking charges were similar with a higher proportion of visitors (35%) rating charges as “poor/very poor”. The centres with the highest levels of dissatisfaction (poor or very poor) were Bruce Grove/Tottenham High Road (47%) and West Green Road/Seven Sisters (43%).

Frequency of Shopping Trips

- B.15 Respondents were asked how frequently they shopped in each centre, as shown in Table B.5. The average number of trips per week in each centre is shown in Table 6.7, and the average ranges from 2.29 to 3.20 trips per week. All the centres have a high proportion of frequent visitors (once a week or more).

- B.16 In terms of time spent in the centre, the overall average length of visit was only 27 minutes, with most (56%) visitors staying under an hour. The average length of visit was broadly similar in all centres, ranging from 23 to 33 minutes.

Table B.6: Average Frequency of Visit in Centre

Centre	Average Number of Visits per Week

How Visitors Rate Each Centre

B.17 In addition to car parking availability and charges, visitors were asked to rate each centre on a range of different factors as shown in Table B.7. The average score for each centre is shown. Scores of under 2.5 suggest an overall rating of “poor” to “very poor” (shown in red). Scores of 3.5 to 4 suggest an overall rating of “good”. Scores of between 2.5 to 3.5 suggest a neutral rating with equal proportions rating the centre as “good” or “poor”. The centres with the highest overall levels of satisfaction (scores over 3.5) were:

- Green Lanes - 10 factors rated as “good” and only 1 factor rated as “poor”
- Crouch End - 10 factors rated as “good” and only 1 factor rated as “poor”
- Muswell Hill - 10 factors rated as “good” and only 3 factor rated as “poor”
- Wood Green - 5 factors rated as “good” and only 2 factors rated as “poor”.

B.18 In West Green Road/ Seven Sisters the number of factors rated as “good” and “poor” were the same (3 each). Bruce Grove/Tottenham High Road had the highest level of dissatisfaction with 4 factors rated as “poor” and only 2 factors rated as “good”.

B.19 The main factors rated as “poor” across most centres were car parking availability and charges, traffic congestion and public toilet. The main factors rated as “good” across most centres were bus services/facilities, personal safety, places to eat/drink, layout of centres, supermarkets and the range and quality of shops. The results for street markets, entertainment/leisure facilities and town centre events were generally neutral.

Black = Neutral (2.5 to 3.5)

Red = Poor to Very Poor (1 to 2.5)

B.20 Respondents were also asked what improvement they would like to see in the centre. Overall the , the main responses were as follows:

Table B.8: Suggested Improvements in Centres

Improvement	% of Visitors	Main centres where mentioned
Increase range of local/speciality shops	22	Muswell Hill, Bruce Grove/Tottenham High

Crouch End	Central London, Wood Green, Brent Cross, Muswell Hill, Finsbury Park, Islington, Walthamstow
Bruce Grove/Tottenham High Road	Central London, Wood Green, Walthamstow, Muswell Hill, Crouch End, Green Lanes, West Green Road/Seven Sisters, Edmonton
Green Lanes	Central London, Wood Green, Finsbury Park, West Green Road/Seven Sisters
West Green Rd/Seven Sisters	Central London, Wood Green, Walthamstow, Crouch End, Finsbury Park, Green Lanes

B.24 Customers within all centres also visit Central London to shop. Brent Cross attracts customers primarily from the centres in the west side of the Borough (Muswell Hill and Crouch End). The results also suggest the catchment areas of the six centres overlap. Wood Green appears to attract customers from the widest area.

Socio-Economic Characteristics

B.25 The socio economic characteristics of visitors are shown in Figure B.2.

Figure B.2: Socio Economic Characteristics of Visitors.

B.26 Crouch End and Muswell attracted the highest proportions of visitors within the A/B socio-economic group (i.e. professional and managerial), which suggests the profile of customers in these centres is more affluent than the other centres. Wood Green and Bruce Grove/Tottenham High Road attracted the highest proportions of visitors within the D/E socio-economic group (i.e. un-skilled or manual workers).
