STATUTORY CONSULTATION

Proposed Electric Vehicle Charging Points (EVCPs) – 2024/25 Batch 2

Dear Resident or Business,

As part of the Council's policy to promote and encourage the uptake of Electric Vehicles, we propose increasing the number of Electric Vehicle Charging Points in Haringey by installing **32** additional charging points at **16** locations across Haringey. These will be part of the Source London charging network and accessible on a 'pay as you go' basis and Source London members.

We are writing to inform you that charging points are proposed on or near your road. These will require dedicated parking bays for the sole use of electric vehicles to charge. As part of these proposals, we are required to extend some double yellow lines at locations near junctions. The attached list outlines the sites where EV charging bays are proposed across the borough. The proposed layout for each site can be found on our website here: <https://www.haringey.gov.uk/new-ev-charging>.

Following the feedback from previous consultations, we are also consulting on revised proposals at two locations on Ellington Road N10 and High Cross Road N15.

In order to introduce the charging points and bays we are required to carry out statutory consultation so that we can be legally enforced. This is the legal part of the process and takes the form of a public notice advertised in the local press, London Gazette and displayed in visible locations on street, to inform of the Council's intentions.

The statutory consultation for these proposals will begin on **Wednesday, 29 January 2025** and provides 28 days consultation period for anyone wishing to object or provide a submission to the proposals. You can send us your objection or submission via the online portal <https://consultation.appyway.com/haringey> or email traffic.orders@haringey.gov.uk. Alternatively, you can write to us at the postal address shown on this letter. Please include **'2024-T51- EV Charging points 2024/25 Batch 2'** within the subject title of your email or letter.

To view the proposals and to send your submission on the Council's online portal, please visit <https://consultation.appyway.com/haringey>. You can find them by selecting the 'proposals in consultation' button in the top right-hand corner (shown in the image below) and then selecting **'2024-T51—EV Charging points 2024/25 Batch 2'** from the active consultation list.
