Outcome of Statutory Consultation and Works Notice

Installation of Electric Vehicle Charging Points (EVCP's) - 2024/25 Batch 1

Dear Resident or Business,

You may recall that we consulted you in July-September 2024 regarding the possible introduction of 32 Electric Vehicles Charging Points (EVCP's)/bays at 14 locations in the borough. As part of this we also consulted on revised proposals for two locations in Broadland Road N6 and Linley Road N17. We received a good response to the consultation and on behalf of the Council, we would like to thank all those who took the time to have their say and make their views known.

Full details of all the comments can be found in a report now available on the council's website at: <http://www.minutes.haringey.gov.uk/ieDecisionDetails.aspx?id=3029&LLL=0>

As part of the decision-making process, the council have given careful consideration to all comments and objections received, with the proposed introduction of 28 EVCPs having now been approved. The council will now proceed with the introduction of EVCPs at the locations provided with this letter. Design drawings for each location are available to view on the council's website which can be found here: <https://new.haringey.gov.uk/streets-roads-travel/travel/electric-vehicles/current-proposals-electric-vehicle-charging-points> - Electric Vehicle Charging Points (EVCP) – 2024/25 Batch 1.

These EVCP's will be part of the Source London network and accessible to Source London members and all other users on 'pay as you go' bases. More information on membership and usage prices of the charging points can be found on the Source London website which can be found here: www.sourcelondon.net

The installation works for the EVCP's points will be carried out over two months commencing **13 January 2025** and we expect all the charging points to be operational by **14 March 2025**.

If you have any queries or require any further information, you can e-mail us at frontline@haringey.gov.uk.

Thank you for your interest,

Yours faithfully
